EDUCATION

BSc in Software Engineering
Addis Ababa Science and Technology University
Relevant Coursework: Internet Programming, Database Systems, Object-Oriented Programming(Java), Operating Systems, Mobile Computing, Computer Graphics, Embedded Systems, Distributed Systems, Artificial Intelligence and Machine learning.

10/2021 – 06/2025
Addis Ababa, Ethiopia

PROFESSIONAL EXPERIENCE

Software Engineer, Intern, Awura PLC

- Developed and maintained the frontend of Awura's official website using React, creating a user-friendly interface with optimized design and responsiveness.
- Implemented Google Sheets as a backend for the vacancy page, enabling real-time updates for open positions, allowing the content team to manage postings efficiently.
- Contributed to UI/UX improvements across multiple projects, such as an admin portal for a tour company and an NFT platform, ensuring consistency, accessibility, and visual appeal.
- Enhanced technical skills in frontend development, particularly in React, CSS for responsive layouts, and Axios for API integration, achieving significant improvements in code efficiency and project structure.

04/2023 – Present
Addis Ababa, Ethiopia

PROJECTS

Awura Official Website

- Designed and built the frontend of Awura's website using React, enhancing user experience with a clean, responsive layout.
- Integrated Google Sheets as a backend for the vacancy page, allowing real-time job posting updates by the content team.

7/2024 – 8/2024

African Jewel Tours

- Designed, developed and improved admin-side features for managing tour packages and destinations.
- Utilized Axios for seamless API integration, improving data handling and interface responsiveness.

08/2024 – 10/2024

EXTRACURRICULAR

AASTU Software Association, [Club / Content Creator / Graphics Designer]

- Designed engaging graphics and curated content to enhance AASTU SEA's social media presence, boosting member engagement and promoting events.

04/2024 – Present

GDSC, [Club / Content Creator]

- Created informative and visually appealing content for GDSC AASTU, supporting community growth and knowledge sharing among students interested in tech.

10/2024 – Present
