EDUCATION

BSc in Software Engineering

10/2021 – 06/2025

Addis Ababa Science and Technology University

Addis Ababa, Ethiopia

Relevant Coursework: Internet Programming, Database Systems, Object-Oriented Programming(Java), Operating Systems, Mobile Computing, Computer Graphics, Embedded Systems, Distributed Systems, Artificial Intelligence and Machine learning.

PROFESSIONAL EXPERIENCE

Frontend Developer

05/2025 – Present

Tamcon Software Solutions 🌐

Addis Ababa, Ethiopia

- Developing the Ethiopian National Lottery platform (ethiolottery.et 🌐) with React.js, Next.js, and Docker, creating containerized applications optimized for speed, reliability, and maintainability.
- Implemented localization with i18n, supporting 4 languages (expanding to 12+), gaining strong expertise in multilingual systems.
- Built and launched the Ethiolottery Telebirr Mini App, enabling seamless lottery access via Telebirr.
- Integrated secure payments with major Ethiopian banks and Telebirr, ensuring smooth and reliable online transactions.

Software Engineer, Intern

04/2023 – 04/2024

Awura PLC

Addis Ababa, Ethiopia

- Developed and maintained Awura's official website with React, delivering a responsive and user-friendly interface.
- Improved UI/UX across multiple projects, including a tour company admin portal and an NFT platform, ensuring consistency and accessibility.
- Enhanced frontend expertise in React, CSS (responsive layouts), and Axios, improving code efficiency and project structure.

PROJECTS

African Jewel Tours

08/2024 – 10/2024

- Designed, developed and improved admin-side features for managing tour packages and destinations.
- Utilized Axios for seamless API integration, improving data handling and interface responsiveness.

ACHIEVEMENTS

Hackathon [AASTU Hackthon 2024]

01/12/2023

2nd Place [NFT Market place for Digital Arts] Ababa Ethiopia

SKILLS

Next.js, React, Javascript, HTML, CSS
