Portfolio

Professional Experience

Frontend Developer, *Tamcon Software Solutions* 05/2025 – Present
Addis Ababa, Ethiopia

- Develop and maintain React.js and Next.js features for the Ethiopian National Lottery platform, serving 4M+ users.
- Recruited and lead a team of 9 junior developers, coordinating task planning, mentoring, code reviews, and delivery across system and game development projects.
- Drive technical decisions and coordinate with management to translate business requirements into technical solutions and deliver company systems and gaming products.
- Build responsive, production ready interfaces with a focus on performance, reliability, maintainability, and user experience.
- Implement internationalization (i18n) supporting 4 languages, with the platform designed to scale to 12+ languages.
- Developed and launched the Ethiopian National Lottery Telebirr Mini App, extending access to lottery services through Telebirr.
- Integrated payment flows with Ethiopian banks and Telebirr to support online transactions.
- Use Docker for containerized development and deployment workflows.

Software Engineer, *Awura PLC* 04/2023 – 04/2024
Addis Ababa, Ethiopia

- Developed and maintained Awura's official website with React, delivering a responsive and user-friendly interface.
- Improved UI/UX across multiple projects, including a tour company admin portal ,ensuring consistency and accessibility.
- Enhanced frontend expertise in React, CSS (responsive layouts), and Axios, improving code efficiency and project structure.

Education
